Dear Michael Schwartz,

Enclosed are the student thank-yous from Ms. Maron's project "The Magic Maker: Lab Demo & Prep Tables Needed!." Her 11th grade students wrote them just for you. We hope they illustrate the impact of your generous gift.

Keep the excitement going by taking a photo of your favorite thank-you and sharing on Facebook, Twitter, or Instagram. Include @DonorsChoose and #sharethanks in your post and we'll feature your thank-you!

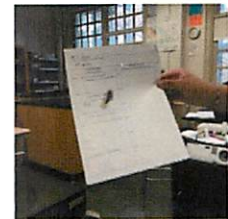

Your kindness has made a difference in the lives of these students, and that surely means more than any thanks we could ever offer. But nevertheless: thank you.

Sincerely,

A handwritten signature in blue ink that reads "Julia Prieto".

your donation which helped
buy extra storage tables in the
back which also double as extra
seating. We also use the table
for demos where we've previously
melted pennies and blew stuff
UP (Lithium & water mix :)

Dear Michael,

THANK YOU for getting
our chemistry class
tables for cool experiments
like burning a penny to
melt the zinc out.
